Subject: Deficient Amended Notice of Intention to Commence Small Mining Operations, Hub Research & Development Company, Miller Rock Mine, S/015/0043, Emery County, Utah

Dear Mr. Clark:

The Division of Oil, Gas and Mining has reviewed the referenced amended Notice of Intention to Commence Small Mining Operations (NOI), and the following items will need to be addressed before the NOI can be determined complete:

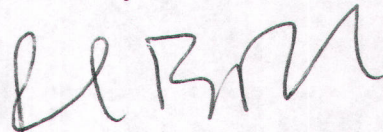

1. Please fill out and return the Small Mine Reclamation Contract and fact sheet.
2. Please include supporting calculations for determining the amount of material that will have to be moved during reclamation. This may include a map and cross sections on which to base volumes.
3. Please include in the reclamation plan a narrative of how the cliffs that have been undercut will be reclaimed. The Division and the BLM have safety concerns about cliff failure.
4. Please include costs for removing the abandoned truck, boneyard items, tires, and any other mine-related items in and around the mine
5. The mobilization/demobilization charge should be from the Salina area. During periods of high economic activity local contractors might not be available, and the Division may need to obtain a contractor from Salina or Price.
6. Please include a general location map. The map needs to show how to get to the site from a town or generally known geographic location.

Please provide your response as replacement pages to the original NOI, using Form MR-REV-SMO/EXP, available on the Division's web site at www.ogm.utah.gov

Please call Wayne Western at 801-538-5263 if you have questions about this letter.
Thank you for your cooperation.

Sincerely,

A handwritten signature in dark ink, appearing to read 'P. Baker', written in a cursive style.
